

Science Tokyo Student Success Support Project
Future Creation Challenge — Let Your Ideas Take Shape
Application Guidelines for FY 2026 (6th Term)

1. Purpose

Let your ideas take shape!

The Student Success Support Section of the Student Support Center at Ookayama Campus, and the Student Support Division of the Education Planning Department, jointly organize the “Future Creation Challenge” — a Taki Plaza-based project in collaboration with alumni association Kuramae Kogyokai that supports Science Tokyo students.

The project prioritizes support for those who are engaging in new activities to bring their own ideas to life. No matter how small, your ideas matter. We’re here to support your first steps toward making them real. Ideas inspired by what you learned in classes and workshops are also welcome.

Transforming your vision into something tangible during your student years can be a powerful experience — one that can help shape your future career. We look forward to your active participation.

2. Eligible projects

To be eligible, projects must fulfill all of the following.

- 1) The project must be planned and conducted by Science Tokyo students themselves.
- 2) All members must be students.
- 3) The project’s representative must be a Science Tokyo student.
- 4) In principle, the project group must consist of at least two Science Tokyo students.
- 5) Science Tokyo students must account for at least two thirds of the group members.
- 6) The project must not promote or endorse particular political or religious views.
- 7) The project must not be part of research currently under faculty supervision.
- 8) If the project receives funding from other sources, the amount must be less than the amount requested from the Student Success Support Project.

3. Support period and details

Support period: Until the final presentation session planned for July 2027

Support details:

- 1) Financial support in the range of 100,000 yen to 500,000 yen per project
* Generally, allowable expenses are limited to necessary items (consumables are permitted, but purchases over 100,000 yen per item are not), domestic travel, and rewards for non-Science Tokyo students. Exceptions may be considered upon consultation.
Please note that the final amount will be determined through a presentation-based review and may differ from the requested amount.
- 2) Access to the Taki Plaza B1 Floor Student Support Center Meeting Room
Reserve a common space in advance (only available for meetings and project work).
- 3) Printing of leaflets and posters
- 4) Lending of equipment owned by the Student Success Support Section, Student Support Center
- 5) Consultation with faculty members of the Student Success Support Section

Note: During the past five years, one to six applications were accepted per year, with the support amount ranging from 60,000 yen to 500,000 yen.

4. Eligibility requirements

All of the following must be met.

- 1) The representative of the group must be a bachelor's or graduate student (excluding non-regular students) of Institute of Science Tokyo at the time of application and completion of the project.
- 2) Regardless of nationality, a set of application documents in Japanese or English must be prepared and the presentation must also be made in Japanese or English.

Note: Each group is allowed to continue to apply for up to three years.
About five projects will be selected this year.

5. How to apply

The representative of the group must prepare an application (attached form) and submit it by email to the Student Success Support Section of the Student Support Center by 10:00 AM on Monday, Aug 24, 2026.

Submit to: st-initiativesupport@ssc.isct.ac.jp

6. Reporting and requirements

The selected project groups will be required to perform the following:

- Periodic reporting of activities to the Student Success Support Section (in writing/via Zoom)
- Attending the final presentation session (all group members, in principle)
- Monthly reporting on support usage
- Returning any unused support amount

Note: Any group failing to fulfill the above requirements will not be allowed to apply from the next fiscal year onward.

7. Application schedule

10:00 AM on Monday, August 24, 2026: Application deadline

Late August 2026: Application review

Friday, September 18, 2026 (Afternoon) : Presentation review (In principle, all members of the group must attend.)

Late September 2026: Notification of the review results and explanatory session including the use of the support

Around July 2027: Final presentation session

Notes: The screening committee of the Student Success Support Project will make a final decision on the selection, and applicants will be notified of the results by the Student Support Center.

Only successful applicants will be notified of the schedule and other details of the presentation review.

8. Review criteria

- Novelty (for new projects) or creativity (for ongoing ones)
- Does the team demonstrate initiative in taking the “first step”?
- Is there a clear and specific plan, including steps and a timeline, for realizing the idea?
- Is the proposed goal feasible?
- (Recommended) Does the project content or team composition reflect diversity?
